She Keeps Faith With You-Will You Keep Faith With Her?

Quietly, but effectively, the Greatest Mother in the World is giving aid to those who need it most. She has not forgotten the crippled, blinded remnants of the war who are still in Army and Navy hospitals.

She does more. She takes to her arms the victims of disaster in peace, the victims of floods, fire, tornadoes and other catastrophes. Over 30,000 such unfortunates were shielded and sheltered by her this year. The Greatest Mother in the World-YOUR RED CROSS-is keeping faith with you; keeping faith not merely in your own country, but in devastated Europe as well.

Will you keep faith with her? The good she has done in the past has been made possible entirely through your membership. Join the Red Cross or renew your membership during the

WHAT IS THE PURPOSE OF THE CROSS ADVERTISING CAMPAIGN? SHOULD

PATTERSON MERCANTILE CO.

HOME LAUNDRY

Advertising makes it possible to talk to millions of people where before only thousands could be reached. Therefore to make the Roll Call for members a success it is first of all necessary that every one of the ten million members be told in simple, direct language the facts that make the Red Cross as essential in Peace Time as its services were essential in War Time. To do this the use of advertising is not only desirable—it is necessary, perhaps this year more than in any previous period of Red Cross history.

The newspaper and the magazine are the great market places of the modern world. Through their columns men meet to buy and sell. In their pages is printed the news and gossip of men's business, which formerly they were able to tell to one another in person. The newspaper is the market place and lecture platform all in one. Not to use advertising space to secure and renew memberships would be for Red Cross to turn its back upon one of the greatest and most powerful instruments of modern influence.

one of the greatest and most powerful instruments of modern influence.

There is no greater cause in the world today than that of the American Red Cross. The Roll Cell this year will be a test of our ability to impress

the cause on the American people. Underwritten advertising space in your

local newspaper will help to do it.

The Roll Call may be made an even greater success than it was last year if we approach it confidently and energetically by the fullest personal effort backed up by adequate use of advertising space in the newspapers of every town and city.

The Fourth Red Cross Roll Call is in no sense a "drive" or a campaign. The term should not be used by any Red Cross worker, "Drive" suggests the use of temporary and artificial stimulus to overcome inertia on the part of the public. "Inertia" has never been a characteristic of Red Cross membership. The Fourth Red Cross Roll Call is simply a nation-wide reminder to the millions of Red Cross members to renew their allegiance to a cause that has the hearty sympathy of every man, woman and child in America. The advertising copy shown in these pages is therefore "reminder copy-not "drive" copy.

It is not possible to use money intrusted to Red Cross for relief and disaster word for paid advertising. Although needed, the Red Cross has no separate fund for advertising. Therefore Red Cross must rely on its staunch friends to see that the Red Cross is given the advertising space that the merit of its cause deserves. Already, many such friends have stepped forward and out of their own pockets have made its possible for at least one page advertisement to appear during the week of the Roll Call in the Saturday Evening Post, the Literary Digest and Colliers Weekly.

CENTRAL NATIONAL BANK

While the magazine page will help act as a reminder during the time of enrollment, it cannot be too strongly urged upon every Division and Chapter to see that local newspaper space is underwritten.

The American Red Cross has no hesitation in asking the fullest possible co-operation on the part of editors of the nation and the Chapter Publicity Committees in order that the Fourth Roll Call may be made powerful in influence and results.
